

## KDMA DIARY

You are cordially invited to the final dinner-cum-educational evening for the 2004 year. Apart from a congenial dinner, a red or two, and convivial company, this is a critical evening in the KDMA calendar. It will consist of a General Meeting, but also the all-important AGM. You will hear a run down of the activities of the KDMA year. The achievements, the enjoyments, the hilarity (at times), the togetherness that makes KDMA still the strongest independent doctor association in Australia. Please be present.

You will also have the opportunity of joining the Committee (nominations now due - form enclosed) and having input into the future directions of your association. KDMA is very personal, the "big family" that has melded together for on wards of a century! Below are the dates for your 2005 calendar. Pencil them in right away to make certain you wring every vestige of educational support and goodwill from your KDMA. For those without pencils, the computer is claimed to be even better but occasionally goes blank.

A KDMA Member suggests the trio above is "too highly strung to face the musical operation". There will be a new picture in February. If you have a favourite (or wish to draw one), send to the Editor now. Happy Christmas grunting to one and all!

### 2005 CONGRESS SOUTH AMERICA

The KDMA 2005 Congress will be run during the October school holidays, in Buenos Aires and Iguazu Falls, Argentina. A very competitively priced package is being negotiated, with many interesting inclusions.

Final details will be mailed to you before the Christmas break.

### 2005 ANNUAL GOLF DAY
